What amendments are available to you? Example (chicken manure, horse manure, compost, etc)

## Filling out the Logan Labs Submission Worksheet. Please fill it out completely.

1. Your client name goes on client name line.
2. Enter your client address, city, state, and zip on lines provided.
3. All reports are emailed.
4. Final reports have 5 sample results per page. If you want your reports one per page, list your sample ID's going down, otherwise list your sample ID's going across.
5. Follow the example below:

Page	Sample ID	Sample ID	Sample ID	Sample ID	Sample ID
1	Green #1	Green #2	Green #3	Green #4	
2	Tee #1	Tee #2	Tee #3		
3	Fwy #1	Fwy #2			

6. Contact lab if you want additional testing, other than what is listed.
7. If soil depth is not at 6 inches, note the correct depth on the line provided.
8. Fill all soil bags with soil to the "Fill Line", or 2 cups of soil, if using a Ziploc bag.
9. Mark all bags with client name and Sample ID with a permanent marker. Make sure that the Sample ID on the bag and the submission worksheet match.
10. Close each bag tightly and pack into a cardboard box, make sure any extra room in the box is filled with packing material so no movement is allowed.
11. Place the submission worksheet into the box. **If soil bags are wet, place the worksheet and the payment in a plastic bag. If no payment accompanies the sample, we will contact you about payment.**
11. Mail all samples to address at the top of the submission worksheet.
